

February 2006

Ernest Murray joins ONE as Business Development Manager

Ernest Murray has joined the team at ONE to manage the wide range of business opportunities at the ONE Systems Division. As Manager Business Development, Ernest Murray is responsible for driving the company's business development opportunities as well as guiding the company's marketing strategies, including product marketing, market development, and marketing communications. Ernest joined the Orbital Network Engineering team in February 2006 bringing more than ten years of leadership experience in the Aerospace and Department of Defense industries.

Prior to joining Orbital Network Engineering, Ernest spent seven years in both business and engineering management roles at King Aerospace Inc. where he led the program management and implementation of multi-million dollar upgrades to the U.S. Air Force E-9A Airborne Telemetry Aircraft. Before King Aerospace Inc., Ernest Murray spent five years gaining leadership and systems engineering experience as a U.S. Air Force Communication Officer serving in multiple leadership and planning roles for both air and ground based communication systems.

He received a Master of Science degree in Computer Science from Florida State University. In addition, Ernest holds a Bachelor of Science degree in Computer Science from California State University – Fresno.
